Why buy a WINNEBAGO

Australian Made

Winnebago is proudly designed and manufactured in Queensland, Australia; creating jobs for local workers and providing customers with confidence in our build quality.

World-Class Factory

The full range is manufactured in a new purpose-built factory in Brisbane. The 12 acre facility is one of Australia's largest, with world-class technology and market-leading production standards.

International Dealer Network

Network of long standing and well respected dealers across Australia and New Zealand.

Authentic Winnebago Product

Backed by the most respected RV manufacturer in the world. It's more than a brand, it's a reputation.

Nothing beats the real deal!

- **Backed by Home-grown and International RV Giants** – Apollo Tourism Leisure Ltd is Australia's largest RV rental company established in 1985. In 2014 Apollo became the official licensee for Winnebago in Australian and New Zealand. As a public company listed on the Australian Securities Exchange, customers have peace of mind in Apollo's longstanding history in the industry, and future of manufacturing Winnebago.
- **Tried and Tested** – Our products have been subject to rigorous testing to ensure they can be safely enjoyed for years to come. Designed by our team of experienced engineers, each product has engineering certification and validation. All products comply with Federal and State legislation and are badged with the RVMAP accreditation key, a stamp of approval by the Caravan Industry Association of Australia.
- **Warranty and Servicing** – Boasting over 1,700 service providers across Australia and New Zealand, and a dedicated warranty department to assist customers while on the road.
- **Built to Last** – We have been manufacturing motorhomes since 2005 for Australia's largest rental operator, Apollo. These vehicles are built to withstand enormous kilometres and numerous drivers over long periods of time. Our Winnebago vehicles are built to the same high standard required for the longevity on the Apollo rental fleet.
- **Modular Construction** – Resilient and durable modular construction reducing the chance of leaks, damage and allows for easy repairs if required.
- **Fibreglass Exterior** – Using the highest standard structural composite panels, our vehicles are stronger, more durable and lighter weight than traditional 'stick and tin' designs.

Where will you go in your Winnebago?

Whether it is for a short trip away with the family, or an epic adventure across Australia or New Zealand, your Winnebago caravan is ready to travel with you wherever the road may lead.

Our range of Australian-made Winnebago caravans are at the forefront of the caravan industry, with innovative designs and features within each model.

The range is built in a 12 acre state-of-the-art manufacturing facility. Each model is built on a hot dipped galvanised chassis and houses an impressive list of standard features including solar, washing machine and dual ALKO IRS axles.

Who is WINNEBAGO

Winnebago Industries was established in 1958 in Iowa, USA. After decades of manufacturing quality recreational vehicles and the name Winnebago becoming synonymous with the term RV, in 2014 the US motorhome giant partnered with Australian motorhome company, Apollo Tourism & Leisure Ltd. Apollo Tourism & Leisure Ltd is a public company listed on the Australian Securities Exchange and is an established Australian manufacturer and motorhome rental company.

In 2014, Apollo became the official licensee to manufacture and market Winnebago in Australia and New Zealand. Winnebago Australia provides Australian and New Zealand customers with a wide range of caravans, campervans and motorhomes manufactured entirely from its purpose-built factory in Brisbane, Queensland. The new 12 acre manufacturing facility launched in 2018, supporting continued growth in production and innovation in technology and processes. The range brings an Australian flavour and market leading designs to the iconic Winnebago name.
