

Keeping your Warranty made simple

Like all things new it is imperative that they are well looked after and maintained as per the manufacturer's specifications.

Your instructions state that your motorhome is required to have 2 annual checks
- 1 x Mechanical and 1 x Water Ingress/Manufacturers.

Mechanical - Vehicle Servicing

Like a new car your servicing needs to be completed by an authorised service agent. You can find details of your nearest service agents by going to the below websites -

Mercedes - <https://vans-dealerlocator.mercedes-benz.co.nz/>

Fiat - <http://www.fiat.co.nz/dealers>

Iveco - <http://www.iveco.co.nz/dealer-locator>

The cost of this servicing is stipulated by each individual service agent and is beyond our control.

Manufacturers - Water Ingress Check

For your water ingress warranty to stay in place you are required by the manufacturer to have your motorhome thoroughly checked by a professional service agent agreed upon with DeLuxe RV Group – please see overleaf for a list of suggested agents throughout NZ.

DeLuxe RV Group offer two levels of service which you may choose from -

Water Integrity Check \$230.00

The basic service check includes a full water ingress check on your habitation unit and a body skin integrity check. You will then have your vehicle signed off as having been through your annual water ingress warranty check and it will then be lodged with your manufacturer.

Comprehensive Service Check \$460.00

The comprehensive service check includes a full water ingress check on your habitation unit alongside the following items – Skylights, joints, hinges, doors, windows, operation of all components, water supply, hot air supply, gas supply (this isn't a warrant of fitness), electrical supply (this isn't a warrant of fitness), step, wiper blades, connection between chassis and body, added extras installed at time of purchase and a general look around your motorhomes for any areas of concern. ***This check is highly recommended on your first service.***

This document is relevant for Pilote, Le Voyageur and Winnebago Motorhomes and Bailey Caravans sold by DeLuxe.

Please note that all Dethleffs annual inspections incur an additional fee of \$70.00 – this is to cover the cost of the sealant spray which must be applied as part of your annual inspection. This is compulsory as per Dethleffs instruction.

The cost of the above service is relative to DeLuxe RV Group only, we are unable to control what other dealers may wish to charge for the same levels of service.
