ALWAYS GAME ALWAYS PILOTE

PILOTE

EDITORIAL

Life is a leap into the unknown.

Every minute, every hour, every day is a surprise for those ready to seize it. In 1962, a young man created a caravan in his father's cabinetry workshop. And the story began. In the late 70s, a trip to the United States gave Pilote's founder the idea for his first motorhome. And with it, a totally new way to experience holidays. More freedom, independence and the sweet smell of adventure.

Nothing stops Pilote. From its low-profiles to its A-Class models, to vans and the integration of digital technology to make life on board our vehicles even more comfortable. The hunger for once-in-a-lifetime experiences is what has always driven us. It's not just the journey that counts, but also where it leads us... Always further, towards new discoveries and new lands.

Wherever you decide to go, whatever you desire to see, the choice is yours.

We are ready. Are you?

ALWAYS GAME,
ALWAYS PILOTE.

PILOTE'S

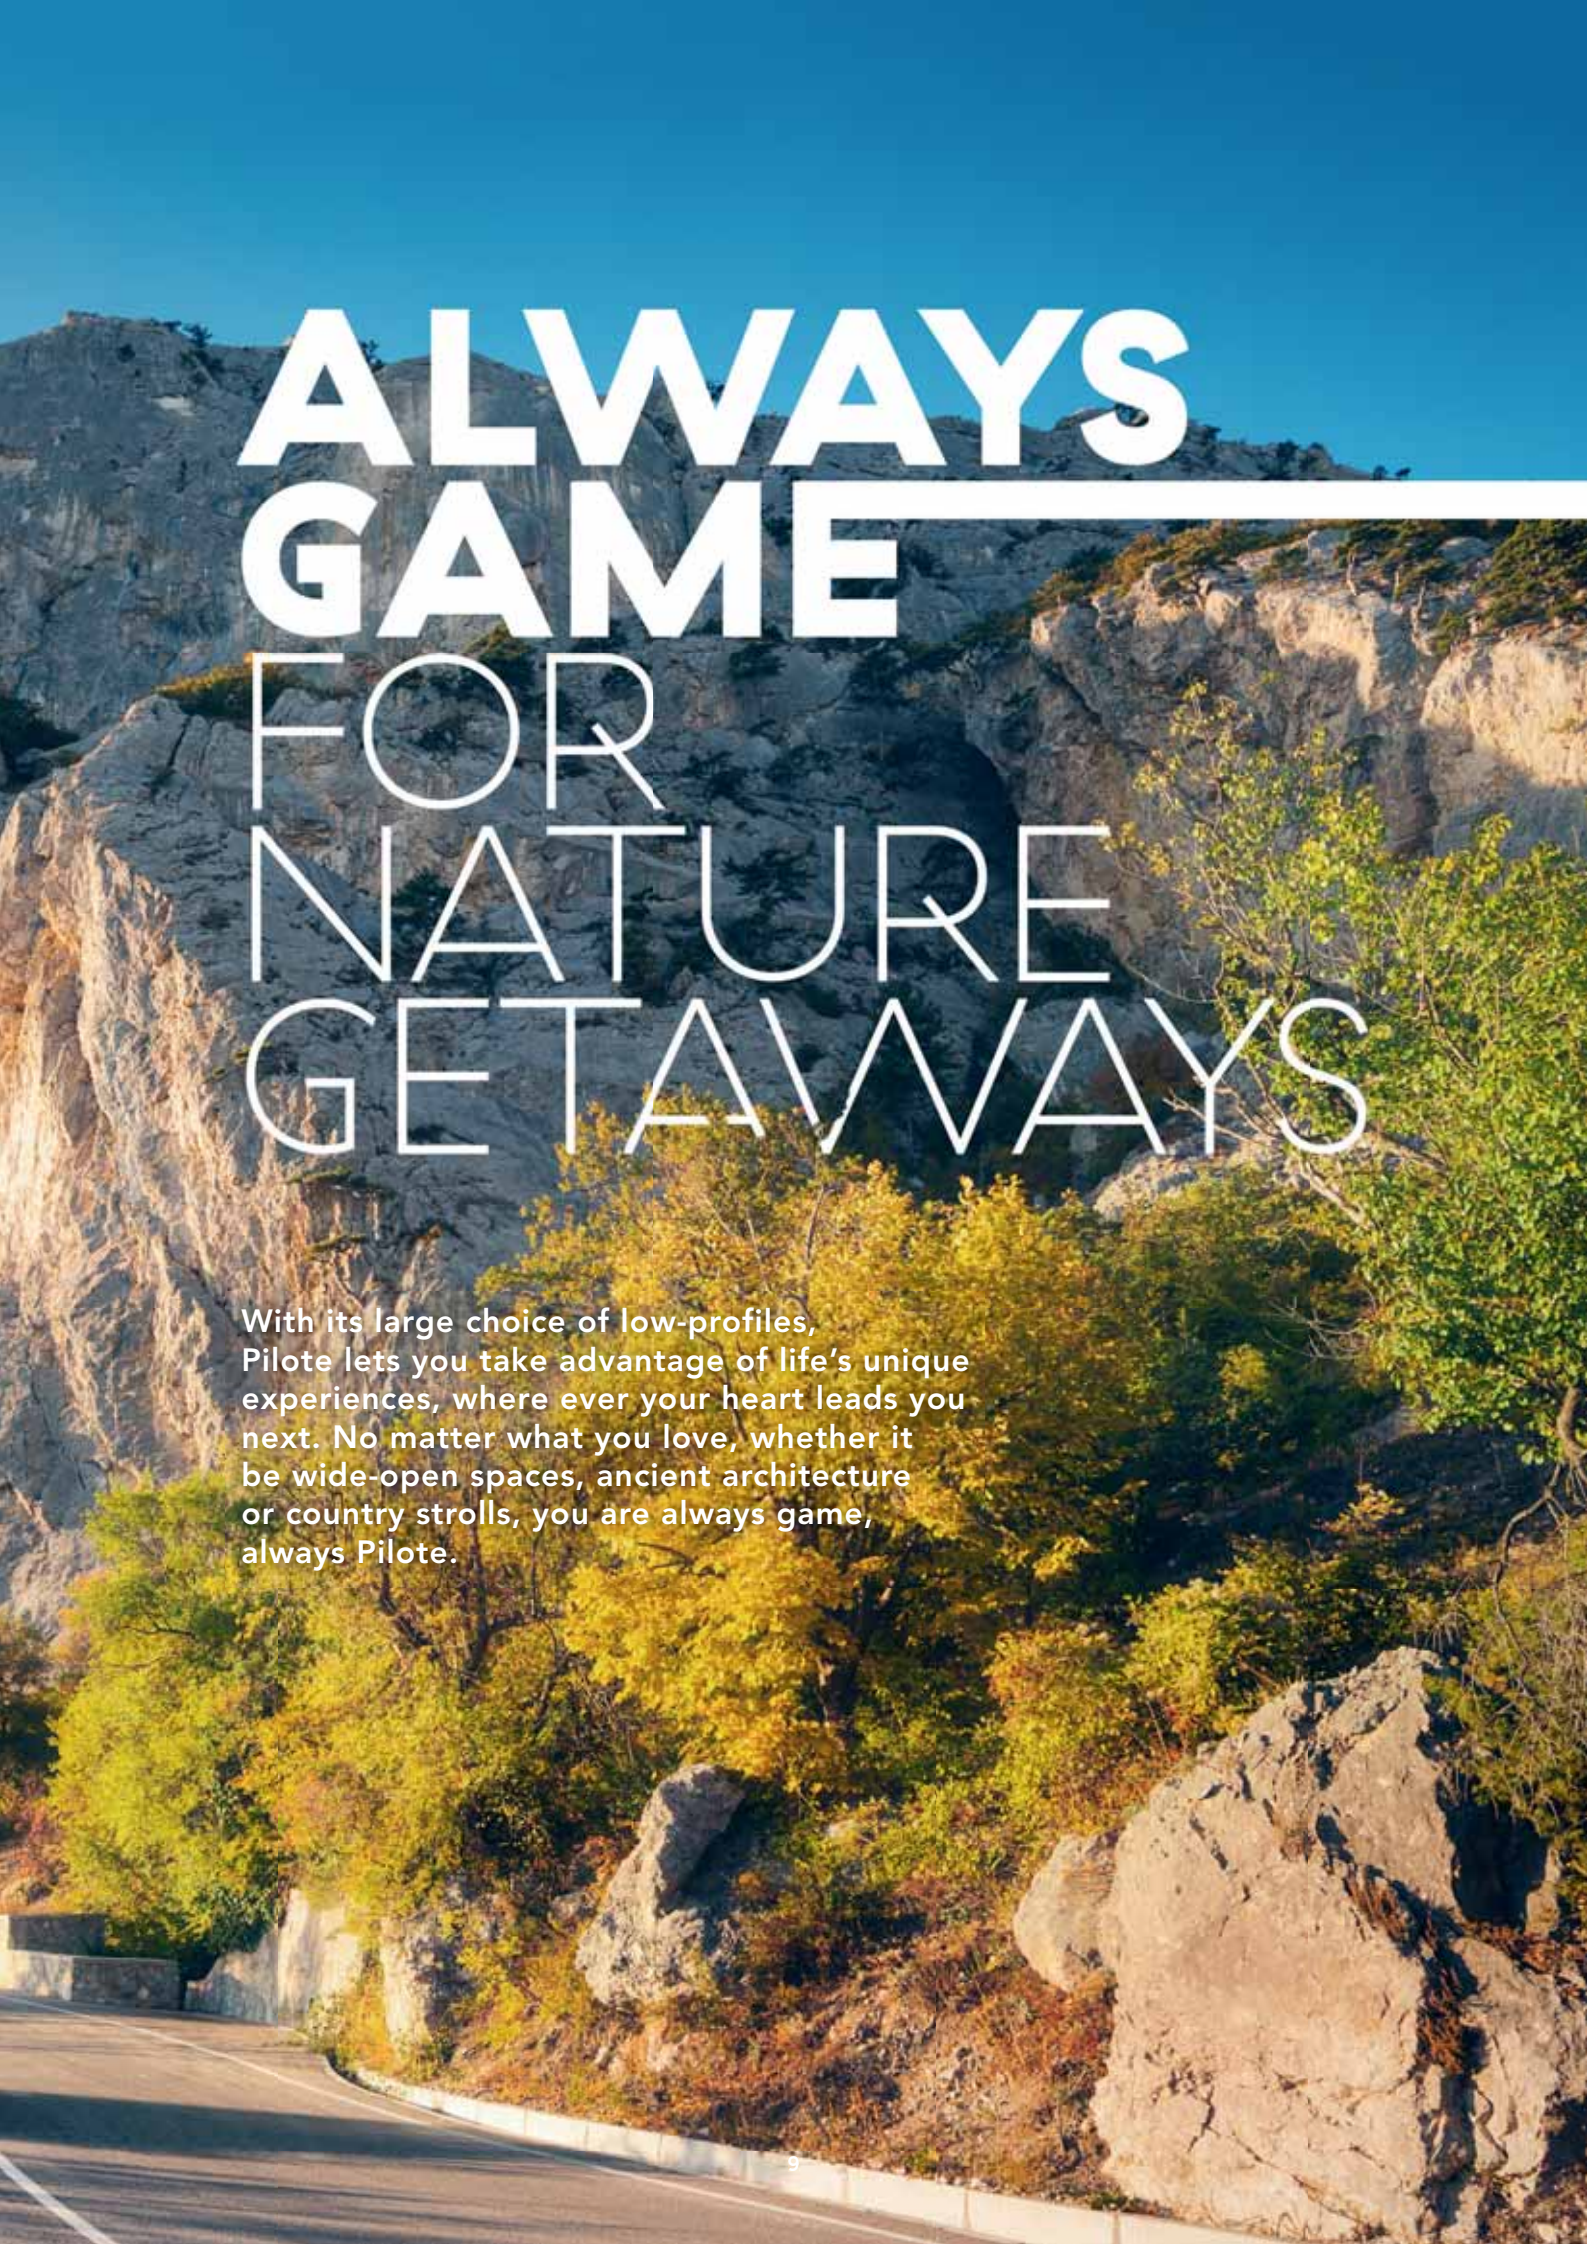
LOW PROFILES



ALWAYS GAME FOR NATURE GETAWAYS

With its large choice of low-profiles, Pilote lets you take advantage of life's unique experiences, where ever your heart leads you next. No matter what you love, whether it be wide-open spaces, ancient architecture or country strolls, you are always game, always Pilote.

A WEEK OUTDOORS IN THE GERMAN MOUNTAINS

AFTER HITTING THE ROAD IN A LOW-PROFILE, IT'S TIME TO HIKE

You find a shaded area to park your low-profile and have a coffee. The crisp silence of the early morning energises you as you take to the trails with a brisk step, the first of many on this ascent. The scent of pine needles infuses every breath you take. And soon, at the bend in the path, the view suddenly clears and the first landscapes open wide before your eyes.

P740FC SENSATION

PRE-DEPARTURE CHECKLIST

The trail map spread across the kitchen table, you take a moment to review your hike, slipping a few energy bars and fresh water into your rucksack.

This short hike in the open air awakens your appetite, and you decide to cook a flavourful dish using local herbs.

- Kitchen with large worktop and many drawer compartments. (Extractor hood standard with Sensation finish)
- A comfortable lounge for 5 people with a face-to-face bench seat
- Large fold-away table making it easy to move about the vehicle

SHOES ON, OFF YOU GO!

Morning-time, you spot a trail taking you down another slope for a beautiful sun-drenched afternoon. The sun starts to go down, you put on your fleece jacket and look forward to a restful night in the luxurious comfort of your motorhome.

In the bathroom mirror, your sun-tinged skin bears witness to the wonderful moments you spent at the top.

P740FC SENSATION

A WELL-DESERVED REST

The day's fatigue starting to set in, your mind and body fall easily into sleep's gentle embrace. Tomorrow, a new day awaits you, along with the promise of new lands yet to be discovered.

- Comfortable bedroom with spacious 150x190 cm bed, nice lighting and an electrically-assisted adjustable headboard (option)
- Large wall-to-wall bathroom with double partition, skylight and towel-rail

LOW-PROFILES WITH
DROP-DOWN BEDS

ALWAYS GAME FOR FAMILY WEEKENDS

With its low-profiles fitted with a drop-down bed, Pilote lets you broaden your holiday plans and bring others with you. Whether inviting a couple of friends or sharing a few days with your grandchildren, you are always game, always Pilote.

THE SPANISH COAST WITH YOUR GRANDCHILDREN

A VIEW OF THE DUNES FROM YOUR LOW-PROFILE

A break to dip your toes in the water and enjoy spending time with your grandchildren. Today's schedule: swimming, sandcastles and crab fishing!

Towels and swimsuits at the ready, you park your motorhome up the road and walk in single file down the dirt path to the beach.

+

P746C SENSATION

LUNCH IN THE SHADE

The sun's rays are strong at this hour. Everyone inside! You prepare the meal while the children set the table.

Your youngest one is taking a nap in the drop-down bed, so you make the most of the moment by taking out the football to kick back and forth with your oldest.

- Electric 2-person drop-down bed
- Kitchen in L-layout (7.15 m and up) for more space to move about plenty of drawers for your utensils and bottles (compartmental drawers, waste bin and extractor hood, standard with Sensation and optional on Essentiel)

CHASED BY THE TIDE

In a few minutes, the waves will swallow the sand castle that you patiently spent hours building with the children. You attempt to reinforce the walls but in vain, the tide has already destroyed the first rampart and invaded the fortress. Time to go home. You get your things, still covered in sand, together quickly and return to your camp, your sandals in your hand.

SHOWER TIME

After playing in the waves all afternoon, the salt from the sea sticks to your skin. The fresh water from the shower feels great as it washes away the last grains of sand from your body.

P746C SENSATION

FIND OUT MORE ON **PILOTE-MOTORHOME.UK**

A MOMENT TO RELAX

While the children finish their showers, you take advantage of the calm to admire the view of the sea from the lounge. You take out the pack of cards and start dealing, ready for the next round. Nothing like a good card game before going to bed.

- Lounge with good lighting and comfortable bench seats (bench seats in L-layout standard with Sensation finish)
- Double-partition bathrooms for independent access to the bedroom or lounge
- Optional: gloss white upper unit door

STRONG POINTS OF THE PACIFIC + MODEL

GALAXY

A-CLASS MODELS

ALWAYS GAME FOR MAGICAL JOURNEYS

With its many A-Class models, Pilote always offers you more comfort and space to brave every new adventure. Whether you dream of exploring Europe or discovering the hidden treasures of the French heartland, between country landscapes and rustic villages, you are always game, always Pilote.

A TRIP TO THE SOUTH OF FRANCE

EXPLORE THE COUNTRY IN A-CLASS

You take out the bicycles from your A-Class's spacious hold and set off on an unplanned ride along olive tree-lined trails, leading to small picturesque villages. The colours of the landscape, the lavender covered hills and the sound of the cicadas... you are indeed in Provence.

G740C SENSATION

PICNIC
IN THE RUCKSACK

You savour a few more minutes in the comfort of your lounge before on a day trip. You don't know exactly where you'll stop. Two sandwiches, some fruit and a bottle of water to keep you going. You're ready for a day outdoors!

- Large lounge area for up to 5 people with a comfortable bench seat and sliding table leaving you plenty of space to move around your vehicle.
- Bright kitchen with large worktop and lots of storage (Extractor hood standard with Sensation finish)

+

FROM −20° TO 40°C ALWAYS PILOTE

MICHELLE AND DOMINIC'S YEARLY TRIP TO SCANDINAVIA

"When we replaced our motorhome, resistance to the cold was one of the top items on our checklist.

We chose Pilote because of the ISOTEK structure that allows us to endure extreme weather conditions.

Thanks to the perfect insulation in the walls and floor, we never feel when the temperature drops, which in Scandinavia can be vicious, especially at night."

PILOTE

COMFORT IN SUMMER AND WINTER

REINFORCED THERMAL INSULATION

Tested in a cold room, Pilote motorhomes have obtained the top certification – Class 3 – for their insulation quality.

Brought down to - 15°C, the motorhome came back up to +20°C in just over four hours*.

This excellent performance was made possible by innovations brought to the assembly procedure, including:

- A new floor design on low-profile and A-Class models.
- Adoption of a new material (PPE) for the wastewater tank and the wheel housings which has proven qualities of lightness, rigidity and insulation.
- The introduction of battens made from fibroplast (polyurethane reinforced with fibreglass) into the floor and sides. These battens are more rigid, providing a solid sides-to-floor connection and entirely eliminating thermal bridges.

* *measurements taken at several points, with a Truma 6 heating system.*

1 FLUSH-FITTING WINDOWS

Thanks to the double glazing with aluminium anti-intrusion frames, these flush-fitting windows improve the thermal insulation and safety of your low profile motorhome.

5 POLYESTER SKIN UNDER THE CHASSIS

This skin provides the vehicle with perfect waterproofing under the chassis.

+

FIND OUT MORE ON **PILOTE-MOTORHOME.UK**

STRUCTURE ISOTEK

2 ALUMINIUM PROFILES

These fasten together securely on the sides and roof. They prevent any deformation of the structure, making the motorhome durable and robust.

3 WALL INSULATION

On the sides, the ceiling and the floor, the walls are built with a Styrofoam insulation core. Moisture resistant battens and aluminium inserts ensure the vehicle and its furniture are perfectly stable.

4 ANTI-HAIL ROOF

This dent-proof polyester overlap roof is hail and impact resistant.

6 ALUMINIUM SKIRTS

This skirt protection is solid and easy to reshape into the bodywork in the event of impact.

7 CHASSIS EXTENSION AND REINFORCEMENT

Your chassis will not sway at the rear. With its resistant structure, your storage area can support considerable weight, ensuring your towing capacity is optimised.

8 DOUBLE SEAL DOORS

All doors feature a double seal and compression locks to ensure perfect waterproofing and insulation for the storage area.

YOU'VE GOT OPTIONS **ALWAYS PILOTE**

YOU ARE UNIQUE, YOUR MOTORHOME SHOULD BE TOO

With no less than **37 models and thousands of customisation possibilities,** create your motorhome according to your personal travelling needs and desires.

Choose **the finish** and **dimensions** as you see fit, 5.99 m – 7.87 m, in addition to **the layout, the sleeping capacity and the storage** volume. For the chassis, Pilote offers you one of the most sturdy and well-built on the market: the **Fiat CCS chassis,** the trusted standard **for perfect road handling.**

Included in the Emotion finish and on the largest models, Pilote also offers the top-of-the-line **AL-KO chassis** for unrivalled driving comfort.

Another point not to be missed: the heating system. Pilote offers you the choice between the **Truma Combi,** the most compact model in Europe, and **Alde central heating** using a heat transfer system, similar to the one used in most homes.

Official seating classification and Mass in Running Order are calculated as accurately as possible in compliance with European legislation. These take into account basic and standard equipment with a tolerance of +/- 5%. Mass In Running Order figures include freshwater tanks with a capacity of 20 litres and diesel tanks 90% full, one gas bottle 90% full, but do not include the weight of the driver or other occupants. Available load capacity figures are the difference between Maximum Technically Permissible Laden Mass and Mass In Running Order. The manufacturer undertakes to provide a motorhome with an actual Mass In Running Order within the 5% tolerance of the indicated Mass In Running Order used for type approval. Caution: additional optional equipment and accessories are not included in motorhome Mass in Running Order figures. Consequently, these will systematically lead to a reduction in available load capacity. Similarly, the significant weight of the additional accessories offered on the market must also be deducted from the motorhomes' available load capacity. Consequently, fitting such accessories may require a reduction in passenger numbers. Compliance should therefore be ensured with all maximum authorised mass figures (total and per axle) once the vehicle is fully laden. Maximum towing limit is chassis data linked to the type approval of the vehicle. Depending on the kind of tow-hitch to be fitted to the vehicle and the specific values given by the tow-hitch manufacturer, the maximum mass of any trailer that may be towed by the vehicle may be lower. Tow-hitch strength rating (especially values D and S) are stamped on a plate fixed to the tow-hitch. D enables the maximum towing weight to be calculated using the following formula: MTL = DxT/[(9.8xT)-D], where: MTL = maximum towing limit (in tonnes); T = maximum gross vehicle weight (in tonnes); D = value (in kN) indicated on tow-hitch. E.g.: if D = 11.3 kN for a 35 L base, the maximum towing limit (MTL) will be the following: MTL= (11.3x3.5)/ [(9.8x3.5)-11.3] =1.72 t (1,720 kg). For a maximum towing limit for a vehicle that can be up to 2.5 t. Motorhomes complying with the technical and design specifications presented in this brochure are considered to be part of the 2019 collection if registered after 1 July 2018. This rule is commonly applied to motorhomes, where the concept of 'model-year' does not exist. Any motorhome driver using a type-B licence issued in France before 20 January 1975 can drive a motorhome with a Maximum Technically Permissible Laden Weight of over 3.5 t. In order to make use of this exemption in France (recognised throughout the EU), the licence holder simply has to go to the Préfecture to have the following code added to the licence: "79: B camping-car > 3500 kg". The vehicles photographed in this brochure may include optional equipment subject to extra cost. As Pilote vehicles are sold in several European countries, their technical specifications and equipment may vary from one country to another. For the exact specifications of models available in each country, please contact your Pilote dealer. Pilote reserves the right to alter the vehicles described in this catalogue at any time and without notice. Styling and decorative items used to improve the visuals in this catalogue are not included with the vehicle or delivery service. Although every care has been taken in its production, this catalogue does not constitute a contractual document.
