

What's a typical DeLuxe Refurbishment process for a Talvor 6 Berth - Hercules Motorhome

This is Before

Each refurbishment is slightly different depending on the condition of the Motorhome once we have purchased it. Most Motorhomes have done between 170,000 – 230,000km and are just over 5 years old. On arrival at our Blenheim base each Motorhome is fully inspected so as to determine what needs to be done to bring it up to our standard

Exterior Refurbishment:

- Any panel damage is repaired and refurbished
- Any paint damage is repaired and repainted
- We remove, reseal and often replace roof vents
- New rear bumper bars fitted
- Remove and replace old transfers with new transfers
- New chrome wheel trims
- External lockers are replaced where necessary
- External steps are checked and replaced when necessary
- Awnings are extended cleaned and checked that they are in good working order
- External mirrors are checked they are functioning properly
- Full mechanical service and new cambelts fitted

Exterior Additions Made

- Install new Vu Dome automatic Satellite
- Install new 150w solar panel and regulator

Interior Refurbishments:

- The Luton area above the cab is retrimmed
- The Refrigerator is removed, serviced with shelving replaced
- Bench and table tops are removed and replaced with new tops
- New stainless sink unit is installed
- Cabinetry is changed with a brand new oven installed
- Curtains are all professionally dry-cleaned
- Each Motorhome is professionally groomed from top to bottom
- Complete componentry check and service so all components are working well

Interior Additions Made

- A new 19" T.V/ DVD is fitted
- New gas oven or New 3 Gas burner hobs and sink unit

What to expect On Delivery

- New Certificate of Fitness
- A minimum of 1,000Km's Road User Charges
- 6 months Registration
- A one hour demonstration of how your Hercules Motorhome functions
- A DVD highlighting the features of your new Motorhome
